COACHBUILDER INFORMATION UPDATE

Date: December 5, 2012
Bulletin Number: XTS 12
Subject: MY 2013 XTS Fuel Economy Ratings and Emission Documentation

To: Cadillac Master Coachbuilders

Please review the attached information and forward it to all appropriate individuals within your organization.

The attached information from General Motors should assist you as a final stage vehicle manufacturer of 2013 XTS Cadillac professional vehicles equipped with the W30, V4U or B9Q option packages.

The issues addressed are:
1) Federal fuel economy of converted vehicles
2) Determination of applicable gas-guzzler taxes
3) Emission certification of converted vehicles

The following information is from General Motors' Emission and Fuel Economy Certification Testing of Data Vehicles simulating conversions of 2013, 3.6L Cadillac professional vehicles with the option packages as shown. The vehicles have been certified to Federal and California emission standards.

If you have any questions or concerns, please contact Joe Pennington at 248-808-0854.
